

Building Financial Clarity for Sustainable Business Growth

Smita N. Kulkarni & Associates

- 70% of Indian SMEs report cash flow as a major growth constraint (industry estimate).

- Rapid expansion often outpaces financial systems.

- Decisions are driven by instinct instead of data.

- Compliance is handled reactively, not strategically.

Growth Is Not The Problem; Structure Is.

Businesses don't fail because they lack ambition. They struggle because structure lags behind growth.
